

LLM Apps

Writing App: Improve Redaction

Problem and applications

- Problem: rewrite a text in different styles.
 - Convert a draft into formal text
 - Convert formal text into informal text
 - Translate from American English to British English
- Applications:
 - Writing emails, memos, reports, articles, etc.

Solution

- Prompt Template.
- Allows selecting tone and dialect options included in the Prompt Template.

Notes

- Requires the user's OpenAI API key.
- Limits the text length to 700 characters.
- Observe the role of functions: definition and execution.
